### Client Support

We are pleased to support current and prospective business owners in a variety of ways. Many of our clients are exploring the idea of starting a business while others have committed to do so, however, they are not sure where to begin. Some of our clients are already in business and ask for our support to enhance their success. In all cases, we have the knowledge and expertise to point them in the right direction.

We have a team of business mentors who are available to meet with current and prospective business owners in response to their specific needs. Some of our mentors specialize in business startup issues while others focus on sales growth and operations improvement. You can visit our website to schedule an appointment based on your needs and their specialties and availability.

We also offer more than 10 educational events each month. These offerings are in response to needs that are communicated to us by our clients. We probably have something that you need on our upcoming schedule whether you need to learn about business plans, bookkeeping, social media, or much more.

We invite you to read client testimonials and client success stories to learn about how we have supported our clients in their own words.

You can learn about many opportunities to enhance your business by visiting our website or participating in our educational events. We want to help you to achieve your dream of starting a new business or realizing more success if you already own a business. Our team has the experience and expertise to help you to overcome most challenges that come your way.
