

## Dental Program Information Sessions 2019-2020

Dental Program Information Sessions (DPI) sessions are held from September through March by program faculty. These (DPI) sessions are open to anyone interested in the dental profession and more specifically Forsyth Tech's Dental Assisting and Dental Hygiene programs. Detailed information about the dental assisting and dental hygiene professions, as well as the admissions process, and Forsyth Tech's curriculum offerings will be covered during these sessions. As a part of the **Minimum Admission Requirements (MAR)**, prospective students who apply for the Dental Assisting or Dental Hygiene program **MUST complete a (DPI) session and submit required program specific forms ( these forms will be given out during the DPI session) to program faculty.** If you are not able to attend one of these in-person information sessions, please contact Kelly Cook the Program Coordinator for Dental Assisting at: 336-734-7447; [kcook@forsythtech.edu](mailto:kcook@forsythtech.edu), or the Clinical Coordinator for Dental Hygiene: Ann Crites at 336-734-7223; [acrites@forsythtech.edu](mailto:acrites@forsythtech.edu) to arrange an alternative. The DPI session (or alternative) and all other steps on the MAR form must be completed along with a **MAR review session meeting** with an admissions counselor **PRIOR TO** the published March applicant deadline in order to be considered for selection in the class of that same year. All DPI sessions are held on the Forsyth Tech main campus in Snyder Hall, room 6108 (2100 Silas Creek Parkway, Winston-Salem, NC, 27103). Enter the campus driveway right before the National Guard Armory if heading West on Silas Creek Parkway, or the campus driveway immediately after the National Guard Armory if heading west on Silas Creek Parkway, and Snyder Hall is the first building on the right. **RSVP for a DPI session is required,** please contact your dental program adviser or Kelly Cook at 336-734-7447; [kcook@forsythtech.edu](mailto:kcook@forsythtech.edu) to RSVP for your preferred date and time. Following is a list of DPI dates, locations and times for Fall 2019 and Spring 2020.
