

Statement of Financial Responsibility

United States immigration regulations require that each student who applies for a student visa must show evidence of sufficient funds available to cover all expenses for at least one academic year. The school must have that evidence before we can issue an I-20 which is required to obtain a visa. **Therefore, your admissions application must include the Statement of Financial Responsibility along with a letter from your bank or your sponsor's bank dated within six months of the application submission date.** The letter would need to detail the amount of money in the account(s) in U.S. dollars and would need to cover the total cost of attendance that is listed below. If a bank letter is not available, a copy of a bank statement in U.S. dollars showing the amount of funds available will be sufficient.

The total cost for an academic year (two semesters) at Forsyth Technical Community College is \$19, 273.00

Please check ALL sources for your financial support:

- From parents or self _____
- From government agency, scholarship organization, or other agency... _____
