Forsyth Tech's 2017

Teacher/Student GenCyber Camp

July 24-28, Pre-Camp Training Middle/High School Teachers

July 31-August 4, Full Camp Rising 7th and 8th graders & Middle/High School Teachers

GenCyber Goals:

- Increase diversity and interest in cybersecurity and careers in the cybersecurity workforce of the Nation
- Help all students understand correct and safe on-line behavior
- Improve teaching methods for delivering cybersecurity content for K-12 computer science curricula.
- Do any of the above topics interest you? Apply Today!

Through the course of the camp you will learn to program a Raspberry PI, secure a system, learn to protect your social media accounts, and much more!

This GenCyber Camp activity is made possible by NSA and NSF grant funding.

Advantages

Offered at no cost! Teachers will receive a stipend!

Raspberry PI, t-shirt, and more for each participant!

Instruction and mentorship from Forsyth Tech Faculty and other experts!

Free lunch and snacks!

Fun learning skills and knowledge for a growing career field!

Apply NOW space is limited!
