Meet Our Clients

Starting and operating a small business is hard work. The Small Business Center at Forsyth Tech provides:

- Confidential one-on-one business counseling
- Small business seminars and roundtables
- Resource center for research and networking

The objective of the Small Business Center Network is to help small businesses succeed by providing high quality, readily accessible assistance to prospective and existing business owners.

Last month, I mentioned that we regularly offer a seminar called Thinking of Starting Your Own Business. This is most appropriate for people before they launch their businesses. We also work with several businesses that are in operation. They are more likely to attend our Sales and/or Social Media seminars as they seek to become more successful. We work with a wide variety of businesses. Here are some things that our clients say about their businesses:

Ja'Net Adams; EMACK Consulting, LLC; www.dreamgirlspeaker.com

“I am the author of "Debt Sucks! A College Student's Guide To Winning With Money So They Can Live Their Dreams!" I speak to college students all over the US and Canada about Financial Literacy.”
