Program Information	Contact Information	Date Updated
Distribution and Logistics Management OSH-3012FO	Kamalah Hill Director, Continuing Education - BIT khill@forsythtech.edu	June 2025

This document is designed to complement your research on the education and credentials relevant to supply chain and logistics professionals on a state-by-state basis, encompassing the United States territories as well.

Educational Preparation: Forsyth Technical Community College's Distribution and Logistics program provides students with training in inventory control, transportation systems, procurement, and warehouse operations.

Certification and Industry Standards: While most states do not license logistics professionals, certifications such as the Certified Logistics Associate (CLA) and Certified Logistics Technician (CLT) from MSSC, or industry credentials from APICS (now ASCM), are valued nationally. Individuals are encouraged to review job postings and consult professional associations for credentials recognized in their desired geographic area.
