

Program Information	Contact Information	Date Updated
Interventional Cardiac and Vascular Technology A45410	LeAnn Scruggs Interim Program Coordinator, ICVT lscruggs@forsythtech.edu	June 2025

This document is designed to guide your research on education and credentialing for professionals in interventional cardiovascular technology on a state-by-state basis, encompassing the United States territories as well.

Educational Preparation: The ICVT program at Forsyth Technical Community College prepares students to assist in diagnostic and therapeutic procedures within cardiac catheterization labs and interventional radiology.

Certification and Licensure: Graduates may be eligible to sit for exams offered by Cardiovascular Credentialing International (CCI), such as the Registered Cardiovascular Invasive Specialist (RCIS) certification. While most states do not mandate licensure, national certification is often required or strongly preferred by employers. Candidates are advised to check specific hospital credentialing requirements and state regulations regarding invasive cardiovascular technologists.
