

Color Mixing Supplies

Course Outline

Week 1- Lecture on Paints and Supplies, color mixing demonstration, introduction to color wheel and value scales

Weeks 2+ - Each week, students will be mixing color for the four scales of color theory. Students will receive teaching and demonstrations to guide them in advanced color mixing skills and understanding of color. There will be individual guidance and encouragement for students as they paint. Slide shows of master works will be discussed to show practical application of these techniques and concepts.
